
AIDS WARNING!

“People of color are disproportionately at risk...”

**“African American women account for 64%
of new HIV infections among women”**

**“In 1999, more African Americans were reported with
AIDS than any other racial/ethnic group. Approximately two-thirds
(63%) of all women and 42% of all men reported with AIDS in
1999 were African American”**

**“African American children represented almost
two-thirds of all reported pediatric AIDS cases”**

**“In 1999, Hispanics represented 13% of the U.S. population,
but accounted for 19% of the total number of new AIDS cases
reported that year. Hispanic women represent 18% of estimated
new HIV infections among women and Hispanic men represent
20% of estimated new infections among men”**

**“In addition to suffering disproportionately from AIDS,
African American women are also disproportionately infected with
HIV... it is estimated that African American women account for
64% of new HIV infections among women”**

“Gay and bisexual men of all races remain at alarming risk for AIDS”

**“In fact, risk may again be increasing in some communities, as
evidenced by recent outbreaks of sexually transmitted diseases,
particularly gonorrhea and syphilis, among Homosexual Men”**
